Gerald C. Wentzel, who was convicted the past Friday for the slaying of Mrs. Miriam F. Green, will be sent to the Eastern Penitentiary in Philadelphia before the State Supreme court decides whether it will permit his release under bond pending appeal for a new trial.

This was learned yesterday when the Kenilworth man's attorney, W. H. Rosenberry Jr., said the appeal bid will not be made before the Supreme court until Monday and that the court will not make its decision on the possible bonding until Tuesday or Wednesday.

This would be after the expiration limit of ten days during which Wentzel may be kept in Montgomery county prison.

ROSENBERRY SAID the appeal bid, which had been scheduled for tomorrow at the latest. would not be made until Monday because earlier presentation would result in the Supreme court setting a date on its May calendar to hear argument. while a printers' strike has delayed legal material and prevented Rosenberry's preparation of argument before the September session.

# Forrestal Says Reds Have A-Bomb Secret, RED OCCUPATION Italy Hit by One-Hour Token Strike; But Not the Capacity to Manufacture It

WASHINGTON, April 12 (P)-Russia knows how to make the atom bomb but there is no telling when she will be able to actually do it, Defense Secretary

At the same time he said that pushbutton wara fare is still a dream for the future, and that total warfare still depends on manpower-"not in the mass, but diffused through thousands of specialties."

Forrestal testified before the House armed forces committee. It is considering a hotly-argued bill to draft men 19 through 25 years of age. One argument of its critics is that atomic and other scientific strides have made the old concept of land armies out of date

One sentence of the secretary's prepared statement read: "The United States possesses the knowledge and the capacity to make the atomic bomb, and as yet the Soviets

do not.' It is his understanding, Forrestal elaborated that Russia knows how to make the bomb but won't have the capacity to make it for some time yet. He endorsed a statement by Dr. Edmund Walsh of Georgetown university that it would

take several years. But he agreed with Rep. Herbert (D-La) who suggested that we have no way of knowing when Russia will acquire that capacity.

"I SAY THEY do not have it. I did not say they do not have the secret," Forrestal testified. Forrestal argued for the peacetime draft and for universal military training as steps for peace, not

war. He told the committee: "The whole aim and effort of the United States is to attain the objective of peace, to prevent differences between nations from developing into armed conflict, until the United Nations has gained the maturity and both the moral and

physical force with which to deal with any international act of aggression." He said he believes that if the United States makes clear it will and can prevent the civilization of Western Europe from being destroyed "we shall

have peace." "An aggressor will be forwarned of our determination backed by our strength," he added.

### **Jews to Proclaim** State on May 16

TEL, AVIV, Palestine. April 12 (P) - The Zionist General council voted today to proclaim the independence of the Jewish state in Palestine on May 16 - immediately upon the end of the British mandate. They also voted to apply to all governments for recognition.

The decision was made at an all night plenary session. The discussian continued today on the setup of an "internal authority" to handle the administrative affairs of the Jewish area until May 16. This internal authority later would become the provisional government of the Jewish state.

In the overnight session, the General council approved the long debated military accord between Maganah, the official Jewish fighting force, and the underground Irgun Zvai Leumi.

The agreement provides only for military co-ordination. No change is made in the Irgun political program which is at variance with that of the Jewish agency.

Under the accord. Irgun retains its own military structure but comes under the overall command of Haganah for purposes of unification of fighting strength.

New Units Moved in To Aid in Enforcing **Border Traffic Controls** 

BERLIN, April 12 (AP) - Allied ntelligence reports said today the Russians were increasing their occupation forces in Germany which

entirely surround the city of Berlin. The increases were said to be concerned with executing new Russian border and traffic controls. German press reports spoke also of new infantry units moved into the Soviet zone.

Several months ago informed estimates placed Soviet troop strength in Germany at more than 300,000, about three times the American total. Present Soviet strength is unknown. American troops in Berlin number about 5500.

Meanwhile the western powers were seeking means of relaxing or getting around the Soviet squeeze against them in Berlin, as evidenced in restrictions on traffic and comthe only man in the world who munications between the city and can be stern in a voice that won't Western Germany.

### American, British Trains Halted **By Soviet Troops in Austria Zone**

VIENNA, Tuesday, April 13 (AP)-U. S. military police said early today that Russian border guards held an American military train for four minutes last night at a check point on the Emms river bridge. Two British trains were detained for four hours and one hour respectively yesterday morning at another point.

The American train, carrying U. S. military and civilian personnel from the American zone of Austria across the Soviet zone into Vienna, halted at 11:43 p. m. and was cleared by Russian guards at 11:47.

The Russians began yesterday tightening up their check system on western power travel communications. They established two new highway check points for western power motor traffic through the Soviet zone.

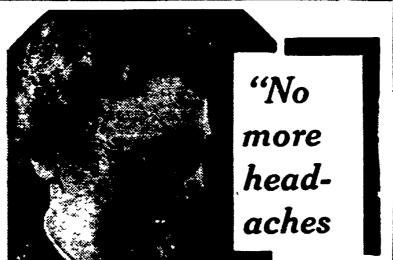

ONE WAS SET up at St. Poelten. 35 miles west of Vienna, along the American corridor road to Linz and Salzburg. All traffic was being stopped, but there was no indication that non-Russian personnel was being held up for any long per-

# Pre-Election Violence Flares Anew

ROME, April 12 (AP)—A one-hour nationwide general strike and fresh violence in the south hit Italy today-just six days before the general elec-

The strike was called by the Communist-led General Confederation of Labor (CGIL) in protest against the violent death of 35 mostly MVD (secret police) units Sicilian workers and labor leaders during the past two years.

Reports reaching Rome indicated the strike went off in a quiet and orderly fashion over the entire nation. There was no general paralysis of activity, as predicted by the men who issued the strike call. In the Eternal City itself many

stores remained open. Factories were idle. Buses and street cars halted, but telephone service was not disrupted.

THE PRE-ELECTION violence flored at Lizzanello, in the southern province of Lecce. A bomb tossed into the midst of a Communist-led Popular Front meeting killed Cesare Trove, 56, and Cesare Longo, 16, and wounded 20 other persons. In an apparent move to forestall

incident, the government dispatched an inspector of public safety to the scene to direct an investigation. Communist newspapers charged Fascists with the bombing, and protested the lack of

protection given the Popular Front meeting. In Rome the Communists folowed up their strike by slapping up posters attacking the minister of he interior, Mario Scelba. They showed Scelba surrounded by 35 crosses-the victims for whom the strike was called.

POLICE WERE ordered to tear he posters down.

Later Scelba countermanded the order and permitted them to be displayed. But he sent a telegram to the secretariat of the CGIL saying the poster "graphically reproby Communist and (pro-Communist) Socialist directors of the confederation.'

Christian Democrat, Moderate Socialist and Republican representatives of the CGIL executive committee had opposed the strike.

### Allies to Return 31 Million in Gold Stolen From Italy

ers to strengthen Italian government forces in the closing days of the hectic political fight for control of Italy. The nationwide election next Sunday will decide whether Italy

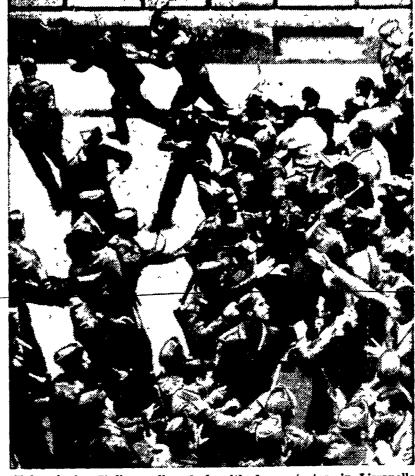

stays in the western bloc or the Communists take over. Some diplomatic officials frankly acknowledged the announcement was a new American effort to show Italians how much confidence the

United States places in the present non-Communist government. Italy is the only country so far to get two dividends from the \$329,-000.000 "gold pot" in Brussels. This represents gold stolen by the Nazis from European countries they occupied.

These are the first important relationships. 3. As they grow older--children normally transfer their affections to people outside the family, and parents should help them do this. 4. Wholesome sex relations are the cornerstone of marriage and children should grow up to be unashamed of their bodies. 5. At all ages children need a chance to know others of the opposite sex, to play with them, quarrel with them, work with them and talk with them. In adolescence especially they need a chance to shoulder responsibilities together. It is a pity when marriages are made on the basis purely of parties and play. 6. Above all, young people need parents who are loving and loyal, who, in spite of the normal frictions of married life, create a stable home where children can grow up and it is even better when they are part

# YOUR HEALTH

of a wider life within the community.

By HERMAN N. BUNDESEN. M. D. IT is a tragic fact that the leading cause of accidental deaths among children in the United States is burns. The tragedy·lies in the preventable nature of many of these deaths for, with proper first-aid and the right subsequent treat-

ment, many of these lives could have been Burns are classified according to the degree of tissue damage: the first-degree burn is one which just reddens the skin: in a second-degree burn blisters form, and

in a third-degree burn the deeper tissues are injured or even destroyed. Whenever more than one-tenth of the body surface is affected by a burn of second- or third-degree, there is danger to life. What can be accomplished by good treatment is shown by the ultimate re-

covery of many people who have had up to half of the body surface burned. It was thought at one time that extensive burns were dangerous because the body absorbed toxic or poisonous substances from the burned area. Today we are less sure about this, but we do know that one of the worst consequences of serious burns is the loss of body fluids and the consequent shock. A bad burn can prove fatal. Later on, the chief danger comes from toxemia. Subsequently, infection may develop and be another source of

grave danger. Thus, treatment is directed at combating these three things. It consists chiefly in the administration of drugs to ease the pain: the giving, by injection into vein, of fluids to replace those lost from the burned area, and protection against infection.

Second- and third-degree burns are free from germs at the start but the damaged, weakened tissue makes an almost perfect soil for their growth should they obtain entrance to the wound. For this reason, most physicians do not favor the use of ointments, even though they are sterile and contain an antiseptic, because their application may contaminate the burned area with germs, causing an infection which may eat away more tissue than was destroyed by the burn itself. Then, too, if ointment is applied it will have to be removed later, a most painful process for the patient. In all cases of severe burns, the first

After a one year absence from the chair, Lester Boughter was returned as governor of Pottstown Lodge 369, Loyal Order of Moose at yesterday's election in the lodge from noon to 8 p. m. which saw more than 300 ballots cast.

Boughter defeated Ralph Fry, former prelate and lieutenant governor, by a 38-vote margin in the only contest.

He and his fellow officers will be installed April 6, and will conduct their first meeting May 1. Boughter succeeds John Sisak, who held the post the past year and who automatically becomes junior the commercial building. past governor.

OTHER OFFICERS elected, without opposition, were Sherman Hess, lieutenant governor, a post he held two years ago; George O. Rhoads, a former sergeant-at arms, prelate; Carl W. Troutman, treasurer, a post he has held the past eight years, and Herbert Goodman, trustee for a three-year term, succeeding James Van Horn, who declined to run after serving the past 12 years.

M. S. Seasholtz was judge of the election. Tellers were Grant Warner and James Pender Sr.

It was Grim's address that seemed to sway members toward action on the consolidation. As Christman remarked later,

"I know that practically every member here, including myself, came here against this move. But if we know the costs, I think it can be worked out."

The only adverse note in the discussion came from E. Leslie Phillips, East Nantmeal director, RHEUMATISM who arose flourishing a picture of his child, and assailed the consolida-

over the bridge has had to be reduced from five to three, the letter went on, and "in view of increasingly heavy traffic" it was felt that reconstruction was necessary.

The last extensive repairs to the structure were made in 1930. The Reading company requested the borough to assume a share of the cost, suggesting 50 percent, but Burgess Griffith promptly arose to report that in a meeting with the Reading representatives almost three weeks ago, he told them that the bridge was their responsibility. "However, that's a matter for you gentlemen to decide," he declared

There was some confusion as to whether this ordinance was new, or whether it was really the third reading of an act read early the past Autumn and delayed because of the protests of property wners along the concourse.

## Presentation of Trophies Climaxes Kiwanis Tourney

A large dinner, presentation of trophies and speeches climaxed the first annual Pottstown Kiwanis Invitational Basketball tournament last night in the Elks home. Approximately 100 persons, including nearly 50 basketball players, attended the affair, sponsored by the Kiwanis club of Pottstown.

Members of the Pottstown Steelers, champions of the Kiwanis tourney; Reading Polish Falcons, Clover Park AC, Liberty Vets of Spring City and the Pottstown Tool and Engineering company basketball teams were guests of the Kiwanis club

Whitney Sanders extended the thanks of the Kiwanis club to everyone who helped to make the first annual tournament a success He introduced members of the four top teams in the tournament before the trophies were presented.

MEMBERS OF THE Pottstown Steelers received red satin jackets before the banquet and were given gold watch-charm basketballs during the program by Harry Burdan, Kiwanis vice-president, Burdan also presented silver watch - charm basketballs to members of the Reading Falcons team, runnerup in the tournament. Sanders presented athletic equipment to Dan Miller, manager of the Clover Park team which finished third in the tourney.

Karl Stone, former president of the Kiwanis club, awarded a gold trophy to Edward Y. Good, coach of the Pottstown Steelers.

The dead-shot trophy was presented to Norman Sunstrom of the Steelers, Sunstrom won the trophy sinking a field goal in the final six seconds to defeat Roth's in the second round. Once past Roth's, the Steelers went on to win the tournament.

JOHNNY BANJO, former Pottstown High athlete who now is player-coach of the Reading Falcons, received a large trophy for being voted the most sportsmanlike player during the tournament.

Anthony Packer, head of freshman athletics at Lehigh university, was the main speaker on the program. After explaining his job at Lehigh, Packer talked on sports in general. His talk was aimed at the Pottstown Steelers, all of whom are still attending high school. He told them how to prepare for

life after school and said that all basketball players have certain responsibilities in their town.

### **Lions Club to Honor School Cagers Tonight**

town High, North Coventry and West Pottsgrove basketball teams will be honored by the Lions club of Pottstown tonight at a banquet in the Elks home. The affair will start at 6:30 o'clock.

Tonight's basketball banquet is the Lions club's part of the Pottstown civic clubs' project to honor all varsity athletes of the three local high schools throughout the year. The ABC honored the football teams of the three schools the past Winter.

The feature of tonight's banjust will be a talk by Bob Allman, popular Philadelphia sports authority. Allman, blind since he was four years old. is a former champion wrestler at the University of Pennsylvania. Now a lawyer. Allman is well known for inventing "ground ball," a softball game for blind persons.

Only the KAISER and FRAZER have it!

TRUE ECONOMYwith Your Kind of Driving

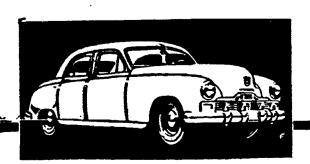

No matter what speeds they drive or roads they travel . . . Gasoline Bills are Lower in a KAISER or a FRAZER

How many more miles per gallon will you get from your 1948 Kaiser or Frazer? There is only one honest answer. Mileage varies with the speed you drive over the roads you travel. It may be anything up to 26 or more miles per gallon. Thousands of K-F owners verify this. Yet in each case they report many more miles per gallon from their Kaiser or Frazer than from car they drove before.

Top Economy for '48!—others claim it—Kaiser-Frazer delivers it! Among 1948 full-sized American motor cars, only the Kaiser and the Frazer have highest compression engines as standard equipment. That alone means less waste and more wallop in every drop of gasoline you buy. You get new power and a combination of top performance with top economy that is brand new to motoring.

Four 1948 models now on display—at no increase in price! See them! You'll insist we let you drive one!
